Kinsale Board of Guardians

**Archival History**
The records of the Kinsale Board of Guardians were deposited in the Archives in the early 1980s.

**Administrative & Biographical History**
The Kinsale Board of Guardians was the governing body of Kinsale workhouse and poor law union. Kinsale Poor Law Union was established under the Poor Law (Ireland) Act, 1838. It was one of 16 unions in the overall County Cork area. Each union was centred on a city or market town and its hinterland, and this union area sometimes ignored existing parish or county boundaries. In this central town was situated the union workhouse (usually built between 1838 and 1852) which provided relief for the unemployed and the destitute.

Kinsale workhouse opened 4 December 1841. The Board, which first met in March 1839, expressed grave reservations over the size of the proposed workhouse. It claimed that the capacity for 500 inmates was over twice that required, and called on the Poor Law Commissioners 'either to increase the size of the union or to dissolve it altogether'. The board eventually accepted the planned workhouse, and, a few years later, acquired the use of other premises in Kinsale to allow it to accommodate numbers of inmates in excess of 1000 at the height of the Great Famine. Other premises used included Kinsale Fever Hospital, the old barracks, and the old gaol.

Each workhouse was managed by a staff and officers under the charge of a workhouse master, who reported to the board. Overall responsibility rested with the union's board of guardians, some of whom were elected, and some of whom were ex-officio members appointed usually from amongst local magistrates. The board appointed its own inhouse committees, and received reports from workhouse officers and from dispensary district committees and district medical officers. It also made resolutions on internal and poor law matters and, sometimes, on wider political or social...
issues. Poor law services were principally financed by a poor rate levied on property owners in the union’s districts, and collected by rate collectors appointed by the board. Central government also provided loans.

Each union was under the central supervision of the Poor Law Commissioners up to 1874 and thereafter of the Local Government Board (later Local Government Board in Ireland). These government-appointed bodies received reports from the board and its officers, appointed inspectors and auditors, sanctioned or rejected proposed expenditure, appointments, and policies, and made the final decision on major administrative issues.

In 1847 the board objected to a proposal submitted to the PLC that a separate union be created in the eastern part of the union district, rejecting claims of neglecting the Carrigaline area. No division was made.

From February 1921 the board no longer read letters from the Local Government Board in Ireland, having accepted the authority of the Local Government Department of Dail Eireann, later the Department of Local Government of the Irish Free State.

Over time, the responsibilities of the guardians increased to encompass public health, including some medical relief for the destitute at the workhouse, ‘outdoor’ relief though a system of dispensary districts, and other functions including overseeing smallpox vaccinations, the boarding-out of orphan and deserted children, and providing labourers’ cottages and improved sanitation. The workhouse buildings included a fever hospital, and fever sheds were created in local districts when larger outbreaks occurred. The workhouse provided education to child inmates, and employed a schoolmistress.

These changing responsibilities were governed by legislation, including the Public Health (Ireland) Acts 1874 and 1878, Medical Charities Acts, Vaccination Acts, Dispensary Houses Act, the Nuisances Removal and Diseases Prevention Act, Contagious Diseases (Animals) Act 1878, and Labourers’ Acts. While these acts tended to increase the role of the board, the Local Government (Ireland) Act 1898 saw most of its public health functions taken over by the newly-created Cork County Council and Kinsale Rural District Council. The board continued to administer the workhouse and its hospital, and to supervise some forms of outdoor relief.

The Local Government (Temporary Provisions) Act 1923 led to the abolition of the workhouse system, and its replacement with the formation of the county boards of health and public assistance. The final recorded meeting of Kinsale board of guardians was held on 16 April 1924.
Content & Structure

Scope & Content
The archives of the Kinsale Board of Guardians are extensive and include large numbers of minute books, letter books, indoor relief registers, financial accounts, and administrative records.

The minutes of meetings of Kinsale Board of Guardians record the administration of the workhouse and poor relief in general (BG/108/A). They also reflect developments in public health, and the care of children, and of those with disabilities and mental illness. In addition, they provide glimpses of emigration, local issues, and politics. The gap in the minutes from 1868 to 1888 is partially made up for by the presence of rough minute books for most of this period (BG/108/AA). Minutes of the board acting as a rural sanitary authority under the Labourers’ Acts trace to beginnings of the provision of social housing in the Kinsale area in the period 1886-98. (BG/108/AL).

Letter books supplement the minutes in documenting the transmission of resolutions and decisions of the board to the PLC/LGB, other state bodies, suppliers, rate-payers, and others. The outgoing letter books present, covering the years 1899-1920, include letters of Kinsale Rural District Council, as the same clerk served both the board and the RDC (BG/108/B). An earlier letter book documents correspondence with the PLC, its architects, engineers, builders, bankers, and other suppliers in the Union’s first few years (BG/108/BB).

Financial records (1839-1925), such as general and personal ledgers and treasurer’s books, record day to day expenditure and receipts, including payments to suppliers.

A small file of medical officers’ returns, 1915-21, contains largely statistical returns of information regarding medical services in dispensary districts, such as number of cases, vaccinations, and public health issues (BG/108/DF).

Administrative records present include master’s journals (1902-08) and a master’s report book (1881-87), recording information relevant to the report made by the master of the workhouse to the board at weekly meetings (BG/108/F, FA. This includes information on provisions required, the weekly exercise of children, and matters arising, such as abandoned children received. A Workhouse farm account book (1899-1925) documents an area of activity not much reflected elsewhere in the collection (BG/108/FT).

Records of inmates of the Workhouse, especially the indoor relief registers (1841-1917), record personal information on those who admitted to the Workhouse. They are a valuable source for family and genealogy research. The registers are supplemented by related records, such as admission and discharge books (1850-1907; BG/108/GA), and two paupers’ discharge books (1855-57, 1869-84; BG/108/GK).

A similar record, a Fever Hospital patients’ register (BG/108/HE/1) is present for 1849-50. Also present is a file of correspondence relating to dispensaries, mainly relating to medical officers and dispensaries (1915-21; BG/108/JD).
A record of death book, 1842-99, supplements other registers of inmates (BG/108/KA). Finally, a few forms relating to the Contagious Diseases (Animals) Act, 1904, are also present (BG/108/M).

The collection is of use to those studying the administrative and social history of the nineteenth and early twentieth centuries, and to students of local and family history. The development of the poor law system, and the local experience of the Great Famine of 1845-49, are subjects of particular interest.

**Arrangement**

The collection is arranged into 21 separate series, under 10 different headings (see table of contents). This arrangement is based on that devised for Poor Law records nationally by Sean McMenamin of the Public Record Office of Northern Ireland (see Appendix 2 to McMenamin’s article in *Irish Archives Bulletin* Vol 1, No 2, October 1971). Please note that gaps occur in many series.

Date: 2 Mar 1839 – 16 April 1924

Level: Series

Extent: 87 volumes

1. 2 Mar 1839 – 28 Mar 1844

Includes:

2 Mar 1839 First meeting elects chairman and vice-chairmen, and adopts bye-laws ‘to ensure regularity and order in the proceedings of this Board’.

8 Jun 1839 Committee appointed to meet with trustees of the fever hospital regarding the proposed transfer of that building and its lands to the PLC.

1 Jul 1839 Committee meeting to select two paid valuators for the union. Fifteen candidatures were considered.

31 Aug 1839 Resolved, to ask the PLC ‘to vest in the guardians a discretionary authority to admit the reporters of the press to their sittings’, the public press being ‘the only sure guarantee against abuse in the discharge of popular trusts’.

5 Oct 1839 Letter to PLC expressing concern at the cost of erecting the workhouse, noting that it is only one ninth less than it is for Bandon, which ‘contains nearly twice the number of acres and of inhabitants and probably a still greater proportion of rateable property’. Surprise is expressed that the proposed building has capacity for five hundred paupers, ‘being more than double the
number ever likely to occupy it’. The ‘facility of emigration… in this part of the country’ is mentioned as a factor mitigating the numbers likely to apply for relief.

13 Dec 1839 Resolved, that should the PLC decline to reduce the expense of the workhouse, that application be made ‘either to increase the size of the union or to dissolve it altogether’.

8 Feb 1840 Resolved, regarding the size and cost of the workhouse, that it is felt to be ‘unnecessary to remonstrate any further’ and to rely on the PLC’s promise to remedy ‘any inequality or injustice’ arising from ‘the smallness of the union’.

29 Mar 1841 Resolved, that a special meeting be called to consider the new rate valuation books, appointment of parish wardens, and the Vaccination Act.

11 Sep 1841 Resolved, that advertisements be placed for the posts of medical attendant, master, matron, and porter, and for supplies for the workhouse.

20 Nov 1841 Resolved, that the visiting committee make arrangements for opening the workhouse on 4 December, and that the stated dietary be adopted.

27 Jan 1842 Resolved, that the stated books be used in the workhouse school.

17 Feb 1842 Resolved, that deserted children ‘for whom ample provision has been already made by law’ ought not to be received into the workhouse.

24 Feb 1842 Resolutions regarding the leaky state of the workhouse, arising from ‘imperfect and insufficient specifications’ [approved by the PLC], and the extra expense to ratepayers of rectifying these defects. [See also 22 Dec 1842]

12 May 1842 Resolutions regarding a ‘mutiny’ by inmates who objected to eat their potatoes and refused to go to work.

19 May 1842 Resolution regarding the ‘extremely irregular’ admission of a woman, ‘she not being a destitute person but sent here by her employers in the last stage of pregnancy with a bastard child’.

20 April 1843 Resolved, to send a petition to parliament proposing an act to relieve Irish unions from repayment of loans for the building of workhouses. [See also 14 Mar 1844]

8 Feb 1844 Resolved, that the messenger be dispensed with ‘and that a trustworthy pauper be selected in the house for same’.
2. 4 Apr 1844 – 2 Apr 1846
3. Missing
4. 26 Aug 1847 – 26 Jul 1849

Includes:

26 Aug 1847 Relieving Officer for No 1 District reports his fears that when temporary relief ceases on 28 August ‘many persons in said district will be in utmost distress’. He was authorised ‘to send 100 of them into this House by provisional tickets’.

16 Sep 1847 Medical Officer’s report regarding the largest number of inmates which the workhouse could safely hold. It is noted that ‘there were for some time 900 in the House’, but that difficulties, including ‘the impossibility of separating all the sick from the healthy make [him] dread again crowding the House beyond the number of 700’; resolution regarding the ‘general opposition to the payment of rates’ in Nohoval and Ballyfoyle electoral divisions, and the bad example of a magistrate ‘who has resorted to objections purely technical’.

14 Oct 1847 Resolved, that the Courcney’s fever hospital be maintained, and that Kinsale fever hospital be rented by the year for the use of the rest of the union.

21 Oct 1847 Resolved, ‘that it is highly expedient that the inmates of this workhouse be kept as far as practicable in constant employment’.

28 Oct 1847 Resolutions regarding a government order requiring the union to pay current and future monies on hand to the Relief Commissioners until the £3859 6s 6d advanced by the government has been repaid. It is stated that ‘this unexpected order’ deprives the union of all money or credit ‘rendering it quite impossible for them any longer to relieve the poor of the union’.

11 Nov 1847 Resolutions expressing opposition to the proposed formation of a separate union in the eastern part of the present union district. It is insisted that ‘no partiality’ in admissions is given to ‘any particular locality’ and that ‘if the inhabitants of Carrigaline did not desire to avail themselves of the accommodation they have no one to blame but themselves’. It is added ‘we are fully alive to the necessity of extending the workhouse’. [See also 23 Nov 1848]

13 Jan 1848 Resolved, in response to a memorial to government from certain ratepayers, that a ‘great part of the letter’ does not relate to the poor law system, and that ‘ample accommodation exists in the workhouse at present and that our relieving officers have been… attentive to their duties and ready at all times to receive applications for relief’.

16 Mar 1848 Report by the Medical Officer to the PLC regarding the use of the old jail ward, which last year was found to be too confined and badly ventilated. He thinks it ‘well adapted for the reception of about 200 aged and infirm men, a
class not so likely to suffer from confinement as the children who last year formed the majority of the inmates and suffered from the then prevailing epidemic’. [Total inmates this week: 1167]

13 Apr 1848 Resolved, that the Board ‘gladly avails’ of the offer by the Commissioners of Colonial Lands and will pay for the voyage to Plymouth ‘of such orphans as shall be selected by the proper officer’, the orphans to be between 14 and 18 years’ old. [Emigration to Australia. See also 18 May 1848 and 29 Mar 1849]

3 Aug 1848 Resolved, to inform the PLC of ‘the sudden and rapid spread of disease in the potato crop’, which is of an ‘alarming’ character and has affected ‘every field’. [See also 24 Aug 1848, referring to ‘the calamitous prospects of the country’ and to the ‘bad appearance’ of the wheat crop, and requesting that repayment of government loans be suspended]

26 Oct 1848 Resolved, in the context of the PLC’s recommendation that the Roman Catholic chaplain’s salary be increased, ‘that we object to the principle that the salary of any officer… should fluctuate with the number of paupers’.

30 Nov 1848 Resolutions regarding a rebate for voluntary rates payment, reduction of the number of relieving officers, and appointment of a committee to report on ‘the chief defects of the present Poor Law’.

18 Jan 1849 Resolved, in reply to PLC order, to inform them that the brewery ward is being altered to take 200 more paupers, and that the dockyard stores, taken at a yearly rent, will hold 600 more. [See also 8 Feb and 8 Mar 1849. Total inmates this week: 1814]

1 Feb 1849 Resolved, that the Sisters of Mercy be admitted into the workhouse and auxiliary workhouses to provide religious instruction.

1 Mar 1849 Notice of note ‘enquiring as to what course or process of manufacture of flax is intended to be carried on in this workhouse’.

19 Apr 1849 Resolved, that the PLC be asked not to insist on repayment of government loans at present, as it is found ‘that destitution is rapidly increasing, the cholera in our neighbourhood, and the ratepayers totally unable to bear the imposition of a new rate till after the harvest’.

7 Jun 1849 Resolved, that a new valuator be advertised for ‘cholera having deprived us of our revisor (Mr DL Howe)’.

26 Jul 1849 Resolved, in response to a Central Board of Health letter, to state that relieving officers ‘are fully authorised… to procure coffins and provide for the speedy interment of all persons dying of cholera… and that a ward of the hospital is still open for the reception patients afflicted with this epidemic’.

Contains supplemental sheets for proceedings under the Pauper Children (Ireland) Acts 1898-1902, Infant Life Protection Act 1897, and Prevention of Cruelty to Children Act 1904 [left blank throughout]; Financial Minutes; Statistical Minutes; and proceedings under the Medical Charities Acts.
8 Dec 1920 – 11 May 1921

Contains supplemental sheets for proceedings in relation to the boarding or hiring out of children and under the Children Act 1908 [left blank throughout]; Financial Minutes; Statistical Minutes; and proceedings under the Medical Charities Acts. By this time, meetings were generally not held weekly, instead occurring monthly or fortnightly. Very few meetings are recorded for Feb-May 1921. The statistical returns of numbers receiving indoor and outdoor relief, preceding each set of minutes, were still completed weekly, and some supplemental sheets, particularly the statistical minutes, were more frequently completed. The last attended ordinary meeting held is that of 20 April 1920.

Includes:

15 Dec 1920 Master's report, with item: ‘That the children are now going to the convent national school every day’; Letters from J O'Neill & Sons Ltd regarding a bread price increase, explaining that contracts for goods under government control ‘are subject to any changes that may be made in such control’.

5 Jan 1921 Master’s report, with item: ‘That Mr Gleeson sent a supply of tobacco and snuff for the inmates at Xmas, and that Mrs Good sent fruit & c for the children and old people’.

19 Jan 1921 Letter received regarding the Board’s recent resolution that no goods be purchased in the shop of CJ Barry. This is attributed to a ‘false rumour… that he or one of his employees was implicated in a recent regrettable and discreditable incident that took place in town’. It is added that the ‘slur’ ‘jeopardises the friendly relations that have existed between the different denominations in the town’. Letters read from the LGB and from Dail Eireann [LGB letters not noted in minutes after 2 Feb 1921]

p286 Note: ‘See new book taken by military on 6 April 1921 for minutes of last meeting’.

16 Apr 1921 Total inmates this week: 88 [subsequent statistical returns blank]

BG/108/AL Rural Sanitary Authority Minute Books (Labourers Acts)

Scope and Content:
Volumes recording minutes of proceedings of the board of guardians acting as the rural sanitary authority under the Labourers (Ireland) Acts, 1883, 1885 and 1886. Meetings were generally held weekly, and minutes are signed by the clerk, acting as executive sanitary officer. The principal subject is schemes for erecting labourers’ cottages, and related actions. These include appointing local committees, appointing engineers, selecting and acquiring sites, seeking and approving tenders, receiving loans from the Commissioners of Public Works, monitoring progress, letting to tenants, rents, disputes, and communicating with the LGB on all aspects of each scheme. In December 1886, an inquiry was held by the LGB inspector after it was found that many of the intended cottages were uninhabitable. The Kinsale Union Labourers Order 1887 was consequently passed to facilitate execution of approved schemes. There are many gaps in the minutes after 1892, and no business was transacted at most of the meetings in 1897 and 1898. Under the Local Government (Ireland) Act, 1898, labourers’ cottages became the responsibility of Kinsale Rural District Council.
